Operation Re-leaf Street Tree Application

Operation Re-leaf is the annual tree planting program offered by the West Lafayette Tree Friends and West Lafayette Parks and Recreation Department. New street trees are made possible through the partnership with the West Lafayette Tree Friends, who raise private dollars to offer replacements are at no cost to West Lafayette residents. To learn more, visit: www.wltreefriends.org.

Trees are selected based on nursery availability each year. Street trees are planted within public rights-of-way or public land. Interested in a specific tree species? Contact the Community Forestry and Greenspace Planner for information. Please submit the completed application to forestry.greenspace@westlafayette.in.gov.

Property Owner Comments: Is there anything you would like to share about the planting site with the Community Forestry and Greenspace staff:

As a requirement to receive a free tree replacement, property owners are responsible to help water young trees during the first 2 years of planting to promote establishment. Not sure how to properly water trees? No problem! Community Forestry and Greenspace staff are happy to provide resources and training.

I am requesting training on properly watering young trees:

By entering your initials below, you as the property owner, have read the statement above and acknowledge the responsibility to water the new street tree upon being planted.

Initials:

Please submit the completed form to the Community Forestry and Greenspace Planner at forestry.greenspace@westlafayette.in.gov. Issues completing the form? Email or call at 765.775.5110.
